

# idea SPACE craft- along

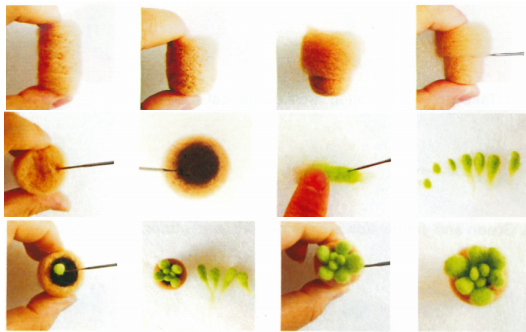

felting instructions

**before you  
get started**

**prepare a solid surface  
that won't be damaged  
by the needles - a cutting  
board or leftover  
cardboard box work well**

**& be careful! felting  
needles are very sharp;  
you may want to wear  
gardening gloves if you  
have them**

**1** roll a piece of of light brown roving into a cylinder

**2** wrap another piece of light brown roving around the top of the the cylinder to form the lip of the pot

**3** use a felting needle to form into a solid shape

**4** felt a circle of dark brown wool on top of your pot

**5** felt a small yellow flower and a white circle, then felt them together

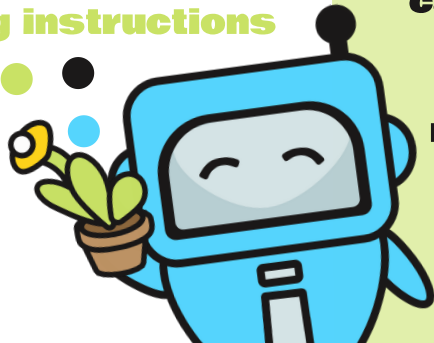

**6** roll and felt a thin cylinder for stem and four small teardrops with green wool

**7** felt stem and leaves to pot
